

#1

1. I want to build a calendar and reminders for final, that show a menu bar item displays date, time, the day of the week and their events. This app will remind you when your input event is coming.
2. A. Open calendars that shows you the date and events. That calendar will show at different versions, such as in a month or a week. ~ 15 hours
B. When you click the new button, you can name a new to do event and chose a time to remind you. ~ 8 hours

3. **Fantastical 2:** <https://apps.apple.com/us/app/fantastical-2/id975937182?mt=12>
BusyCal: <https://apps.apple.com/us/app/busycal/id1173663647?mt=12>
Mini Calendar: <https://apps.apple.com/us/app/mini-calendar/id1088779979?mt=12>
4. That app going to be free download, because every phone comes with a calendar, most people don't have to download the second one.

#2

1. Build an app that can manage my classes.
2.
 - a. That shows the class schedule.
 - b. and I can put my class notes and screenshots on it.
3. Blackboard: <https://apps.apple.com/us/app/blackboard/id950424861>
4. This app is going to be cost \$1, because this kind of app is not for making money.

#3
